PUBLIC ANNOUNCEMENT

The Guernsey County Commissioners intend to contract for funding, engineering and construction services in connection with the following project: **Glass Avenue Culvert Replacement Project.** Engineering firms interested in being considered for a contract to provide the required services should reply with one statement of qualifications, no later than **10 AM on March 13, 2019.** Statements received after this deadline will not be considered. All questions specific to this project must be submitted in writing by March 1, 2019 to the following email address: khaught@cambridgeoh.org.

Statements of qualification should include information regarding the firm's history; education and experience of owners and key technical personnel; the technical expertise of the firm's current staff; the firm's experience in designing similar projects; availability of staff; the firm's equipment and facilities; and references. **SOQ** is to be limited to one hard copy, 14 pages in length (not including cover sheet).

Statements of qualification should be sent to: Kimberly J. Haught, Economic & Community Development Director, at 1131 Steubenville Avenue, Ste. 15, Cambridge, OH 43725

As required by Ohio Revised Code §153.65-71, responding firms will be evaluated and ranked in order of their qualifications. Following this evaluation, the Guernsey County Commissioners will enter into contract negotiations with the most highly qualified firm.

The preliminary project description is as follows:

**Name of Project(s):** Glass Avenue Culvert Replacement Project

**Location:** Village of Byesville

**Description:** Replacement of a collapsing 48” Existing Culvert crossing at Glass Avenue and Rail line. The existing culvert conveys much of the storm water from Byesville via an unnamed tributary to Wills Creek.

**Total Project Budget:** $400,000

**Source of Funding:** CIG. Engineer must be qualified to complete an Environmental Review (ER) in compliance with CDBG requirements.

**Project Schedule:** Sale and Award of the Project is anticipated for 2019.
